

## Marshalling & Event Management 2010

Dear Members

Under the rules of the Club, all current senior members are required to carry out a minimum of 3 duties at racing events.

Please find attached the 2010 list of open & club events for which there is a requirement for marshals or other personnel . Would you please nominate 4 events from the list, indicating them in priority order. . Please ensure return of the form to me **before the end of February**. You will be advised of the events for which you will be required

On the day of the event you should report to the event organiser no less than ½ hour prior to the event start time at which time the organiser will provide details of the precise nature of the assistance required.

If, further into the season you should find that you need to make a change to your commitment, please, in the first instance, endeavour to arrange a swap with another member, if this is not possible contact me as soon as possible so that reallocation of duties can be undertaken in order that the Club's obligations are met.

Members who do not return their forms by the end of February may be allocated duties to meet the obligations. Members are reminded that if they intend to ride events which count towards championships it is a qualifying condition that they carry out their marshalling duties.

Our duties in respect of the ECCA have once again been negotiated to be carried out at the 3up TTT on 18<sup>th</sup> October which the club is organising on behalf of ECCA.

The Wednesday evening 10's are to be held from 21/04/10 to 25/08/10 with one event per month being held at Canewdon & the remainder at Steeple. The marshalling for these events will essentially come from the regular participants giving up some rides to marshal, however any member that feels able to assist in addition to their core duties should indicate this in their reply.

Thanking you for your assistance

Dave Whybrow Marshalling Secretary tel: 01702 522922

<b>Event</b>	<b>Date</b>	<b>Course/Venue</b>	<b>Start</b>	<b>Organiser</b>	<b>Pref.</b>
